Subject: I Think I Found Reports You Were Looking For

Jo Ann:

The Work Planning report does pull 3 years. For instance when I pulled for FY2012, it pulled only the years for 12, 13 and 14. So to get 2011 data, I went back and pulled for FY2011 and it gave me data for 11, 12 and 13.

Here are the reports (summary level and detail level).

Hi, Alice,

I am still trying to schedule a money call with HQ on the FY 12, FY 13 and FY 14 requested RA funds or next week.

The plan is to go over the SCAP 4 line by line on the call.

Could you please send me an updated SCAP 4 for 11, 12,13 ,14? - I was going to wait until I saw your message. thanks

Subject: CERCLIS Outage

All,

As mentioned on the IMC/BC call today, there will be a partial outage of CERCLIS starting 8:00 PM EST on Thursday (8/25) through noon, Monday (8/29). CERCLIS **will not** be available for updating data, but ReportLink or other access outside the CERCLIS application, such as Infomaker and MS Access **will** be available during this time. We'll be removing access to the CERCLIS application by removing it from the available applications that are shown after logging in to Citrix. The Applications box will be empty after logging into Citrix; please see graphic below. The outage is necessary in order to upgrade CERCLIS from version 3.27. to 3.27.1, which synchronizes data between CERCLIS and SEMS. There won't be any acceptance testing on Monday 8-29-11. Please let me know if you have any questions.
